## Ola Collection

design Paolo Vernier — 2016

The principle of *less is more* inspires the **Ola collection**, designed by **Paolo Vernier** - <https://www.midj.com/products/designers/paolo-vernier>, and implies removing any unnecessary element to keep only the essential, either materials, decorum or excess of function.

Ola presents two contrasting souls: on one side a metal tube, on the other a body available either in wood, metal or padded. These two fundamental elements mold into soft waves characterized by countless shades: Nordic if interpreted with the warmth of wood, soft if upholstered with fabric or leather.

The collection includes a chair, armchair, bench and stool, stackable and suitable for both indoor and outdoor use.

Ola is extremely versatile: it can furnish young living spaces as well as the common areas that reflect the philosophy of conviviality.
