Trampoliere Collection

design Roberto Paoli — 2013

The **Trampoliere collection** is a project by the designer **Roberto Paoli** - <https://www.midj.com/products/designers/roberto-paoli>, that plays with a balanced body: the apparently unsteady legs reach upwards by a few millimeters over the seat. This is the products' particular detail.

Trampoliere collection is composed of chair and stool with four-legged base in lacquered metal. All versions are stackable. Optional: removable pillow for seat and backrest upholstered with lines in leather, faux leather or fabric. Versions in cat. O1 e O2 metals are suitable for outdoor use, except for marine areas.

Collection also composed of three coffee tables in different sizes. All versions are available with a three-legged metal base and round top in melamine or hpl.

Bistrot bases are also available in different heights.
