Ghost Collection

design Studio F+B Design — 2020

Ethereal and discreet, the Ghost collection is a delicate tribute to the theme of transparency, created through a light and ideal naturalist shape. It consists of a black metal body and a transparent blown glass diffuser, with a satin top, to diffuse a soft light into the environment.

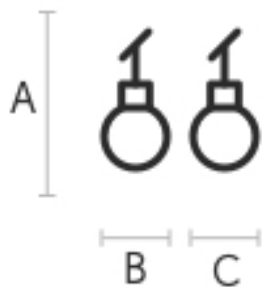

The collection is made up of suspension, floor and table versions. Ghost lamps propagate the light in a diffused and direct way. The glass diffusers are made with a mix of transparent and satin glass to ensure a better expansion of the light in the environment. The supports are made of metal, in the single variant of black and gold.
