Bolle Q100

design Paola Navone, 2022

Coffee table with three-legs base in lacquered steel, square top in hpl, metal or marble. The coffee table configured with hpl or metal top is suitable for outdoor use. In the same collection is possible to find also a coffee table with square top 100x100 cm (39.4 x 39.4 in).

The **Bolle collection** was created for the outdoors and includes sofas, armchairs and lamps in macro-perforated colored metal, with a soft and playfully captivating aesthetic. The name Bolle derives from the special processing of the metal shells, which produces a texture with a strong graphic impact. Indeed, Bolle means bubbles.

The simple yet sophisticated image of the entire collection reveals **Paola Navone's** ability to propose an imaginary linked to her particular Mediterranean taste. The seats are presented as super enveloping shells, to be customized with soft cushions: for limitless comfort, even when away from home.
