## Table Forest

design Beatriz Sempere, 2017

Table Forest fixe avec piètement en acier laqué disponible en deux tailles.

Plateau en bois massif de rouvre ou noyer.

### Couleurs et matériaux

#### Structure

Metal blanc

Metal noir

Metal corde

Métal marron

Métal graphite

Métal industriel

Métal orange papaya

Métal bleu ciel

Métal bleu ocean

Métal bronze

Métal fango

Métal jaune doré

Métal jaune pastel

Métal gris cendre

Métal gris claire

Métal ocre

Métal rose poudre

Métal rosso

Métal rouge bulgare

Métal rouge cerise

Métal vert pin

Métal vert sauge

Metal vert foncé

Acier blanc perle

Acier bleu turquoise

Acier bleu saphir

#### Plateau

Massif rouvre naturel chant droit

Massif noyer chant écorce

## Dimensions

|   | A (cm)<br>(inch) | B (cm)<br>(inch) | C (cm)<br>(inch) |
|---|------------------|------------------|------------------|
| <b>200x106</b><br><b>(cm)</b><br>(inch) | 77<br>30.3       | 200<br>78.7      | 106<br>41.7      |
| <b>250x106</b><br><b>(cm)</b><br>(inch) | 77<br>30.3       | 250<br>98.4      | 106<br>41.7      |

## Données volumétriques

**Poids** 142 Kg  
**Volume** 1.42 mc  
**Colis** 4

## Certifications matériaux

### Metal vert foncé

The technologies used in the previous phase of powder coating play a fundamental role in the final result of the processing. They are in fact essential to increase adherence paint on the metal surface and then guarantee its duration over time. The metal frames, following a total cleaning of the surface, pass through chemical conversion processes, creating a compact base that allows for better adhesion of the subsequent treatment. In the last phase the object subjected to the powder coating process is placed in a polymerization oven, going to form an adherent and extremely tight layer durable. This particular paint job is ideal for outdoor use.

To clean the surface, use a damp microfiber cloth with neutral soap or specific metal cleaning products. Avoid hitting or rubbing the surface with sharp objects. Do not use scourers or other abrasive materials, since they would inevitably scratch the surface. Do not leave rusty iron objects on the surface for too long.

These surface treatments are not suitable for outdoor use, but they guarantee excellent resistance to frequent use, dirt and dust.
