## Chaise Pippi S R\_TS

design Roberto Paoli, 2019

Chaise avec structure à quatre pieds recouverte en tissu. Pieds en acier.

Le caractère absolument original de Pippi enrichit les espaces de vivacité, les transformant en espaces modernes et animés. Ce sont les couleurs tendances, les plus audacieuses et raffinées, qui ajoutent cette touche destinée à être remarquée. ## Certifications matériaux

### Tissu Visual

COMPOSITION: 100% PES FR  
MARTINDALE: 60.000 cycles

#### FIRE RESISTANCE:

DIN 4102-1 B1  
BS 5852-1 (source 0 and 1)  
BS 5852 CRIB5  
UNI 9175 classe 1 IM  
EN 1021-1  
EN 1021-2  
IMO FTP CODE 2010

Visual is a knit fabric, made with FR polyester, bielastic and made with jacquard knitted looms. The slightly three-dimensional fabric construction, combined with sound absorbing material, contributes to decreasing sound reverberation.

#### CLEANING AND MAINTENANCE

Regular cleaning is important to extend the life of the coating, and keep its appearance unchanged. Dust and dirt can wear out the coating and damage the fire protection.

**REGULAR CLEANING:** vacuum frequently, at a power equal to half the device in use, choosing a smooth spout, without brushing.

**STAIN REMOVAL:** in case of slight stains, promptly clean the surface. Remove excess liquids or hard parts of dirt with a clean cloth, then proceed on the residue of the stain with a damp cloth or a neutral soap solution. Remove the stain starting from the edge of the stain moving towards the center of it, then rinse with water. Let dry, avoiding direct exposure to sunlight. For localized and more persistent stains, promptly dissolve the stain with colorless ethyl alcohol diluted in 20% water, gently rub and then treat with a neutral soap solution, then rinse well. Do not use bleach.

These tips are cleaning recommendations and do not guarantee complete stain removal. In case of large stains, we recommend contacting an operator specialized in upholstered products cleaning.

We recommend to not expose light colored fabric for a prolonged time to garments treated with colors with poor dyeing fastness, as the color pigments could penetrate the surface of the fabric, without being able to be removed.

We recommend to always test the cleaning method on a hidden part of the item to check the color resistance.

Colour samples are to be considered approximate for each product. Slight color differences between a lot and the other are to be considered normal.

## Certifications matériaux

### Tissu Fenix Wool

COMPOSITION: 75% WO, 25% PA  
MARTINDALE: 100.000 cycles

FIRE RESISTANCE:  
Classe 1IM  
N 1021 Part 1-2  
Calif. Bull. 117 June 2013

Fenix Wool is a wool fabric with a particular and warm finish, obtained thanks to a treatment that confers softness to the touch and, at the same time, a good consistency, able to achieve excellent resistance to pilling and abrasion.

#### CLEANING AND MAINTENANCE

Regular cleaning is important to extend the life of the coating, and keep its appearance unchanged. Dust and dirt can wear out the coating.

REGULAR CLEANING: vacuum frequently, at least once a week, at a power equal to half the device in use, choosing a smooth spout, without brushing.

STAIN REMOVAL: in case of slight stains, promptly clean the surface. Remove excess liquids or hard parts of dirt with a clean cloth, then proceed on the residue of the stain with a damp cloth or a neutral soap solution. Remove the stain starting from the edge of the stain moving towards the center of it, then rinse with water. Let dry, avoiding direct exposure to sunlight. For localized and more stubborn stains, promptly dissolve the stain with neutral soap diluted in water, rub gently and rinse. Repeat until the stain is removed, and let dry. Do not use bleach.

These tips are cleaning recommendations and do not guarantee complete stain removal. In case of large stains, we recommend contacting an operator specialized in upholstered products cleaning. We recommend to not expose light colored coating for a prolonged time to garments treated with colors with poor dyeing fastness, as the color pigments could penetrate the surface of the fabric, without being able to be removed.

We recommend to always test the cleaning method on a hidden part of the item to check the color resistance.

Colour samples are to be considered approximate for each product. Slight color differences between a lot and the other are to be considered normal.
