## Chaise Stack S PP

design Martini & Dall'Agnol, 2023

Chaise Stack à quatre pieds empilable en polypropylène.

Il est possible de configurer Stack en deux couleurs différentes pour la coque et la base, créant ainsi des jeux de couleurs.

Si configurée avec une base et une coque en polypropylène, la chaise convient à une utilisation en extérieur.

La coque, en plus de la version en polypropylène, est disponible en bois ou recouverte en tissu, cuir, similicuir, peau. Également disponible dans la version avec seule assise rembourrée.

Chaque version de la chaise Stack peut être équipée d'un système d'accrochage pour salles de conférence.

## Couleurs et matériaux

### Structure

**Polypropylène**

8 Couleurs

### Revêtement

**Polypropylène**

8 Couleurs

## Dimensions

| A (cm) | B (cm) | C (cm) | D (cm) |
|--------|--------|--------|--------|
| (inch) | (inch) | (inch) | (inch) |
| 79     | 49     | 53     | 46     |
| 31.1   | 19.3   | 20.9   | 18.1   |

## Données volumétriques

**Poids** 21.2 total Kg  
**Volume** 0.34 mc  
**Colis** 1 (4 pcs)  
**Empilabilité** 10 pièces

## Certifications matériaux

### Polypropylène

Polypropylene is a resistant, non-toxic, odorless, heat resistant and easy to clean plastic material. It is also suitable for outdoor use. Our polypropylene is a material reinforced with glass fiber: an option with excellent mechanical properties that allows the product to be solid and resistant. This material has a marked resistance to fading: a treatment with UV stabilizer and AS antistatic protection works to prolong the beauty of the product by slowing the fading process. However, by exposing the chair to the sun and atmospheric agents for very long periods, the color can undergo alterations. As a thermoplastic material, it is 100% recyclable.

#### CLEANING AND MAINTENANCE

Polypropylene seats are easy to clean, and do not require the use of specific products, except in the case of stubborn and hard to remove stains. For simple and effective cleaning, use a microfiber cloth soaked in water or a solution of water and neutral soap. In case of stubborn stains, it is possible to act directly on them with a neutral detergent, always with the help of a microfiber cloth. Then rinse with water. Avoid abrasive sponges, stain removers and granular cleaners that could scratch the surface. If using a chlorine-based cleaner, rinse and do not dry in direct sunlight.

These tips are cleaning recommendations and do not guarantee complete stain removal.

We recommend that you always test the cleaning method on a hidden part of the item to check the resistance of the material.
